● Please check and record the collection days for your area at the Garbage Collection Sites.

Garbage disposal rules

Please put out garbage by **8 AM** on the collection day.

Please do not put out garbage after collection.

Please place items in transparent or semi-transparent bags by category. (You can also use supermarket plastic bags. However, please refer to the respective pages for information on paper, non-burnable garbage, small metal items, and wood branches.)

For the Garbage Collection Sites you will use, please check with your neighbors or the management company (in the case of apartment buildings).

The garbage disposal location (garbage collection sites) is decided by all users.

- If the garbage is not properly separated or incorrect items are disposed of, it will not be collected. An awareness sticker will be attached and the items will be left behind.
- During typhoons or snowfall, collection may not be possible on the scheduled day. Please cooperate by putting out your garbage on the next collection day or thereafter.

Penalty (fines) system for those who do not separate garbage

Both citizens and businesses are required by ordinance to follow the designated separation categories and disposal methods when putting out garbage.

A penalty system is in place that imposes a fine (2,000 yen) on citizens and businesses that do not separate garbage despite repeated instructions.

- City officials are conducting inspections by opening garbage bags that have not been separated.
- For garbage bags that are not separated, please do not open them in your community or neighborhood association. Instead, contact the Collection Office (back cover).
- Personal information obtained through the opening and inspection of garbage bags will not be used for purposes other than the enforcement of the penalty system.
- This applies to people who can separate their garbage but choose not to.
- People who make mistakes in separation due to misunderstandings are not subject to this.

Please also utilize in-store collection. Let's promote recycling of Recyclables

In Yokohama City, some supermarkets and other stores are actively engaged in the in-store collection of recyclable materials (such as milk cartons, food trays, PET bottles, cans, bottles, etc.).

The collected recyclable materials will be reused as recyclables, so please make use of this service.

When you go shopping, put the recyclable materials for in-store collection in your own bag. On your way back, put your purchases in the same bag. This way, you can both recycle at the store and reduce the use of plastic bags.

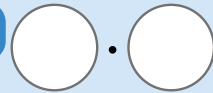

Let's all work together to promote reduction!

For details on the recyclable materials that are collected and the collection rules, please contact each store.

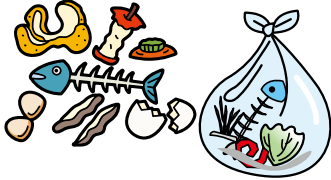

Burnable Garbage

Twice a week

Put it in a transparent or semi-transparent bag.

<Examples>

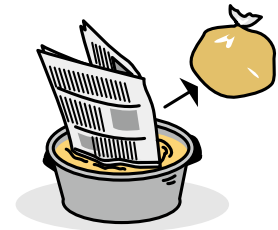

Kitchen Scraps

- Drain thoroughly

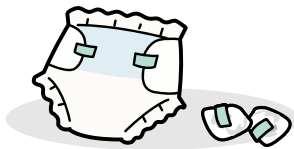

Tree branches and leaves

- Cut tree branches to less than 50 cm in length and bundle them with string (no need to put them in a bag).
- Dry the tree leaves

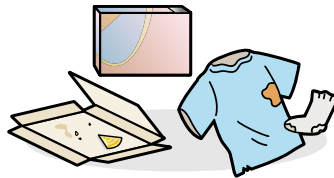

Cooking oil

- Absorb it with paper or cloth, or solidify it.

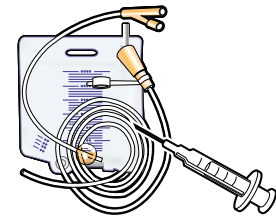

Diapers

- Flush away any waste and compact the diaper.
- If the smell is strong, put it in a small bag and tie it tightly.

Dirty paper·Torn cloth

- For details, refer to P10

Household medical supplies

- Take syringes and needles to your primary care physician.
- Place injection needles in a transparent, hard container.

Small home appliances

(Items that operate on electricity or batteries)

- Items primarily made of non-metal materials (such as plastic) with the longest side less than 50 cm
- Remove batteries and other types of power cells.
- Items less than 30 cm in length that fit into the slot (30 cm x 15 cm) are eligible for collection in the small home appliance recycling box.

Plastic products containing metals and other materials

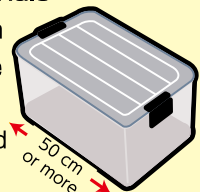

- Items with the longest side less than 50 cm
- If the primary material is metal, dispose of it as Small Metal Items (P8) or Oversized Garbage (P11).
- Use up the contents of the lighter

Not applicable

- Items primarily made of non-metal materials

(such as plastic) with the longest side 50 cm or more

- To Oversized Garbage (P11)

- Items made entirely of plastic

- Items with the longest side less than 50 cm should go to Plastic Resources (P5)

<Examples>

Items with the longest side 50 cm or more should go to Oversized Garbage (P11)

- Small rechargeable batteries (Including mobile batteries)

- Collected by the Japan Portable Rechargeable Battery Recycling Center (JBRC). Collection boxes are also installed at the city hall, and collection offices.

Attention

Due to waste containing batteries (lithium-ion batteries)

fires in collection vehicles are occurring frequently!!

For small home appliances with non-removable batteries, please put them out on burnable garbage day in a **separate bag** from Burnable Garbage.

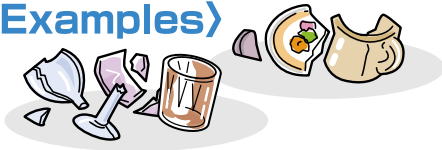

Non-burnable Garbage

Twice a week

Same day as Burnable Garbage

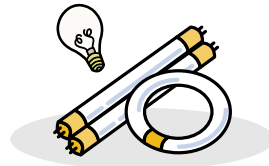

Wrap in the original box (case) or newspapers and label the item.

<Examples>

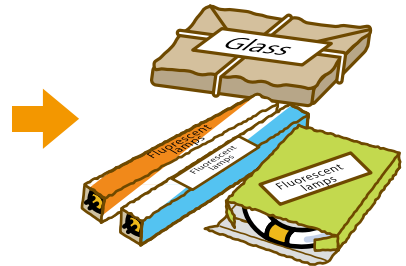

Glass·Ceramics

- Items with a longest side of 50cm or more are considered Oversized Garbage(P11).

Fluorescent lamps·Bulbs

- LED (plastic) should be disposed of as Burnable Garbage(P3).

Spray Cans

Twice a week

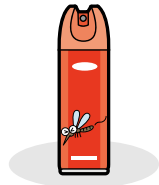

Same day as Burnable Garbage

Empty the contents completely, gather only spray cans, and place them in a transparent or semi-transparent bag.

<Examples>

Hair Sprays

Insect Sprays

Gas Cassettes, etc

- Caps go into Plastic Resources (P5).
- If you cannot completely empty the contents, consult the Collection Office in each district (back cover).

Dry-Cell Batteries

Twice a week

Same day as Burnable Garbage

Gather only Dry-Cell Batteries and put them in a transparent or semi-transparent bag.

Batteries (Disposable items)

- Alkaline and manganese primary batteries

Coin batteries

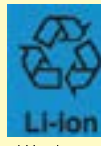

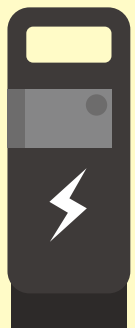

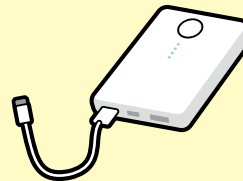

- Model number CR or BR

Not applicable

Button battery

- Model number SR, PR, LR

Li-ion battery

Ni-Cd battery

Ni-MH battery

Small rechargeable batteries (including mobile batteries)

To the button battery collection canister set up by the Japan Battery Industry Association

ボタン電池回収場所

Small rechargeable battery Recycling box

You can find them installed at home electronics retailers and ward offices.

Plastic Resources

Once a week

Day

Put it in a transparent or semi-transparent bag.

You can put everything together in **one bag**.

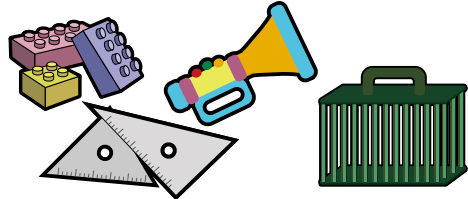

Plastic products

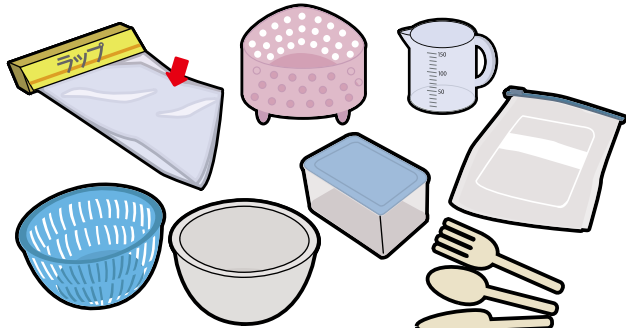

Items made **entirely** of plastic with the longest side being less than 50 cm

Storage items, bath, and washroom utensils

Stationery, toys, etc.

Cooking utensils, kitchen supplies, etc.

Less than 50 cm

Outdoor items

Other household items
(CD cases and cushioning materials, etc.)

Plastic containers and packaging

This mark is the indicator.

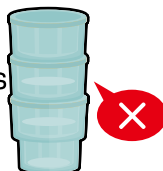

Request

To avoid disrupting recycling efforts, your cooperation is requested.

● Please do not double or triple bag.

● Please do not stack plastic products such as cups when disposing of them.

● Please lightly rinse or wipe off plastic containers with residue, such as those for natto, bento, instant noodles, planters, and dustpans, so that no solid materials remain before disposal.

● For items like tube containers, small condiment packets, and shampoo refill containers that cannot be cleaned inside, please use up the contents before disposing of them.

Not applicable

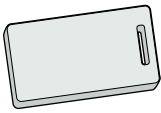

- Small home appliances (items that operate on electricity or batteries)

[Danger] May cause fires in collection vehicles or facilities

To the small home appliance recycling box or
On **Burnable Garbage (P3)** day, dispose of in a separate bag

- Cutting boards and other thick, hard items

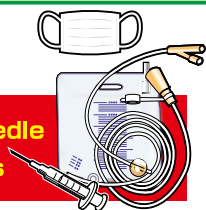

- Vinyl string and sheets, etc that are 50 cm or more when spread out.

[Notice] Reason for facility stoppage

Thick and hard items
Fold or bundle them
• Items less than 50 cm
To **Burnable Garbage (P3)**
• Items 50cm or more
To **Oversized Garbage (P1 1)**

- Household medical supplies and non-woven fabric masks

[Danger] Risk of needle sticks and infections

Household medical supplies・Non-woven fabric masks are
To **Burnable Garbage (P3)**

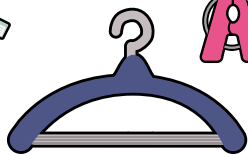

※ Dispose of syringes and needles at your local clinic.

- Textiles (Nylon and polyester)

Clothing To Clothes (P9)

- Items containing non-plastic materials

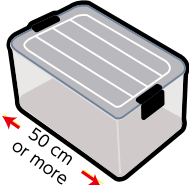

- Rubber, silicone materials

To **Burnable Garbage (P3)**

- Items with the longest side 50 cm or more

To **Oversized Garbage (P1 1)**

- PET bottles

Remove caps and labels, then flatten
To **Cans・Bottles・PET Bottles (P7)**
Caps and labels go into Plastic Resources.

Until the collected "Plastic Resources" are recycled

STEP 1

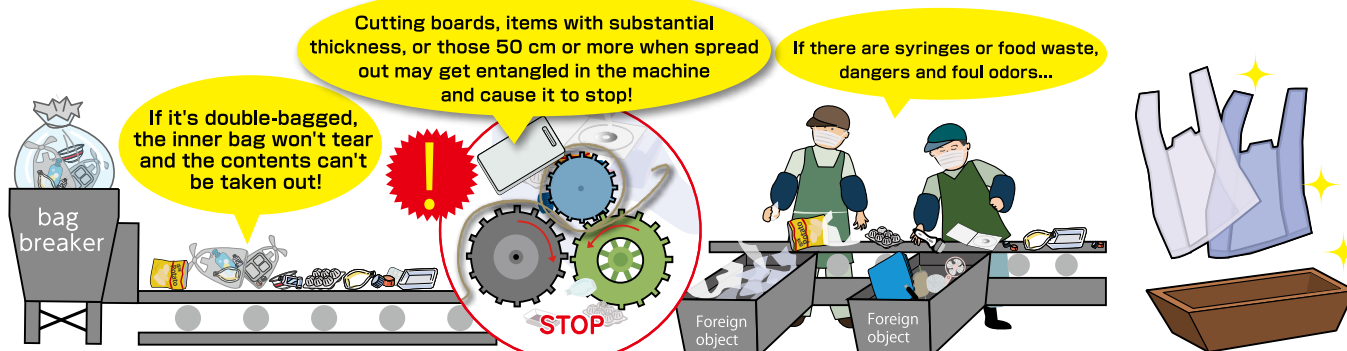

Use a bag breaker to tear the bag and take out the contents.

STEP 2

Separate only "Plastic Resources" (by hand).

STEP 3

Transformed into recycled products.

Cans • Bottles • PET Bottles

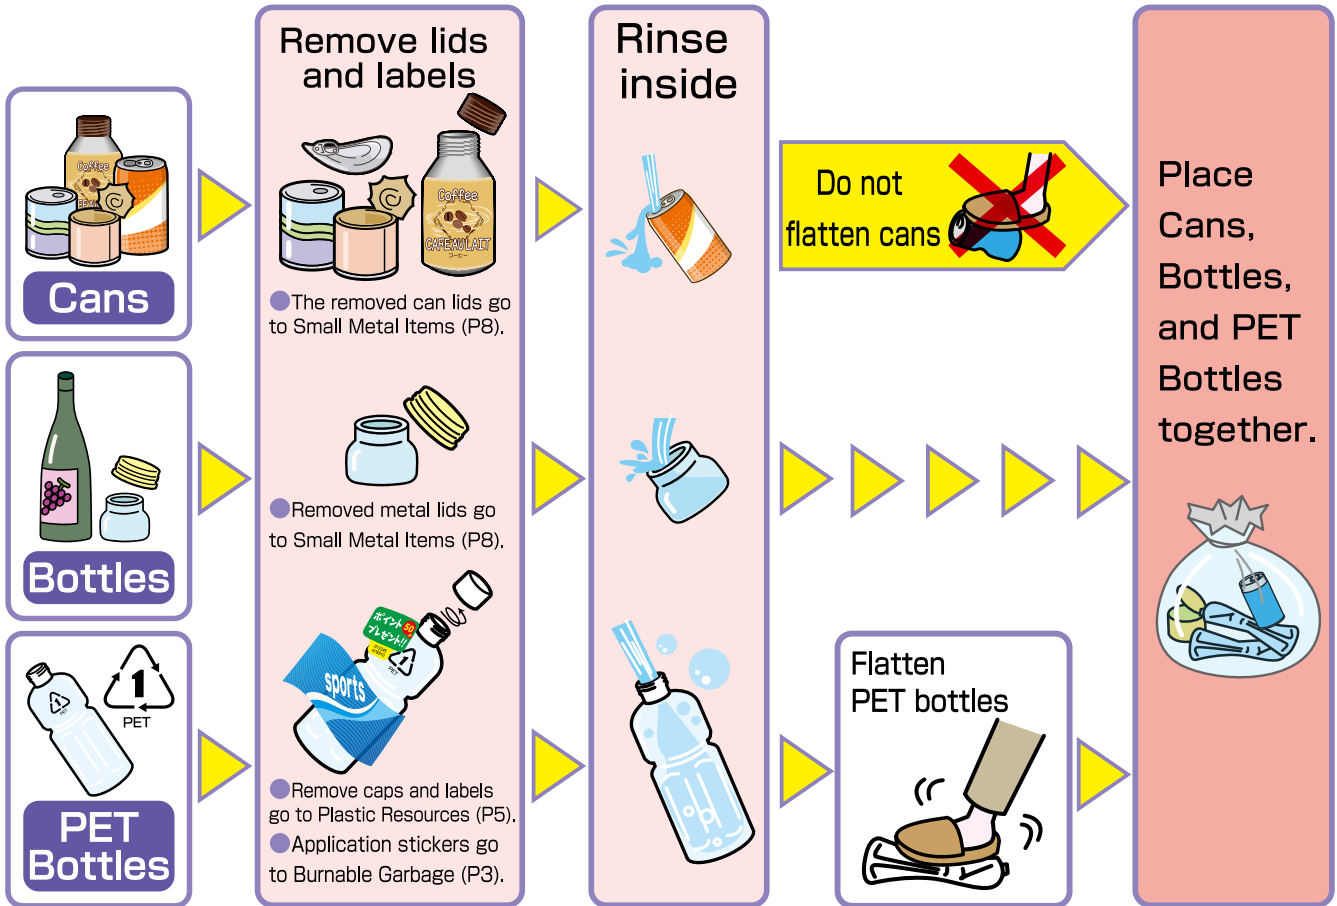

Once a week

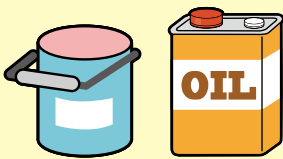

Day

Place cans, bottles, and PET bottles in transparent or semi-transparent bags.

Examples Items that contained food or drink (including seasonings and oral medicine)

Not applicable

● Paint can ● Oil can

To Small Metal Items (P8)

● Cosmetic bottles ● Chemicals bottles

To Non-burnable Garbage(P4)

● Spray can

To Spray Cans (P4)

● Plastic bottles for dressing and sauces

To Plastic Resources (P5)

Attention

Sorting of cans, bottles, and PET bottles is done manually!

Please do not dispose of items like injection needles and spray cans as they hinder sorting!

Small Metal Items

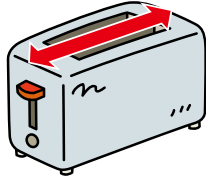

Once a week

Same day as Cans, Bottles, and PET bottles

Dispose without bagging (small items like clips and nails should be bagged)

《Examples》Metal products with the longest side less than 30cm

Less than 30 cm

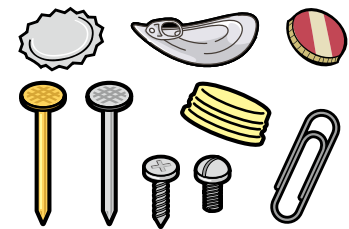

Toaster

Less than 30 cm

Frying pan·Pot

- Items less than 30cm excluding handles

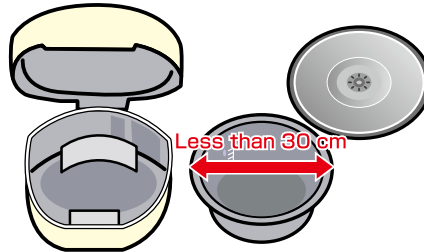

Nails·clips·metal lids

- Put in a bag.

Less than 30 cm

Kettle

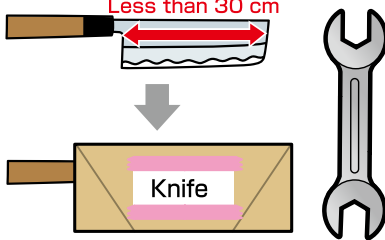

Inner pot and lid of rice cooker (metal)

- Rice cookers and other items primarily made of plastic, less than 50 cm, go to Burnable Garbage.

Metal utensils

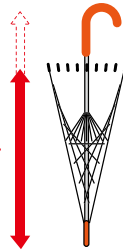

Less than 30 cm

Blades and tools

- Items less than 30 cm excluding handles
- Wrap blades in thick paper or similar material and label them.

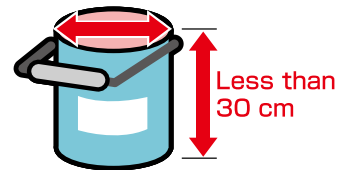

30 cm or more is also OK

Umbrella ribs (metal ribs)

- Remove cloth and vinyl parts and dispose of them as Burnable Garbage (P3).
- Umbrellas with non-metallic bones, even 50cm or more, go to Burnable Garbage (P3).

Less than 30 cm

Paint can

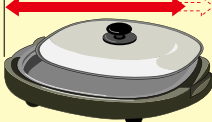

- Empty the contents completely

Not applicable

Items with the longest side 30cm or more

To Oversized Garbage (P11)

30 cm or more

To Burnable Garbage (P3)

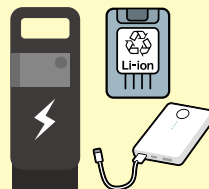

Items containing a lot of non-metal materials

Used up Disposable Lighter

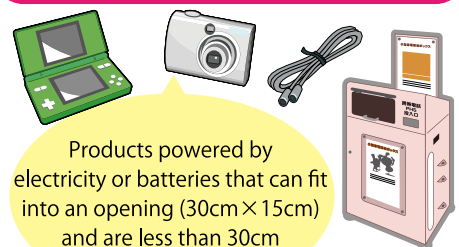

To Small rechargeable battery Recycling box

Mobile battery

Point

Please use the small home appliance recycling box

Products powered by electricity or batteries that can fit into an opening (30cm×15cm) and are less than 30cm in length.

Paper

(Paper items)

● Please bundle items by category with paper or plastic rope (do not use adhesive tape).

● You can put it out even on rainy days.

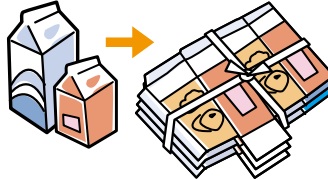

<Examples>

● Newspapers
You can include flyer advertisements as well.

● Cardboard
Items with aluminum coating or adhesive tape on cardboard go into **Burnable Garbage**.

● Milk Cartons
• Wash and dry them, then bundle them in uniform size.
• Items with aluminum coating on the reverse side should go into **Burnable Garbage**.

● Magazines · Other paper
Please place other papers in paper bags (or transparent/semi-transparent bags if no paper bags are available) to prevent the contents from spilling out.

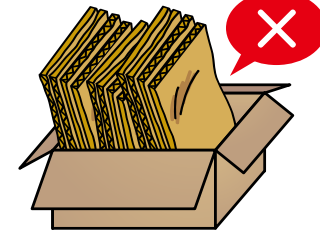

Packaging paper, candy boxes, curry and stew boxes, memo paper, shredded paper, etc.

● Incorrect disposal

× Mixing items

○ Tie separately by item

× Cardboard in cardboard
○ Tie with a string

Not applicable To Burnable Garbage (P3)

● Dirty paper (examples)

Paper container for natto Pizza box

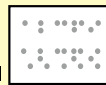

Used tissue paper

● Paper not suitable for recycling (examples)

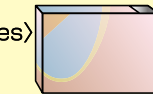

Aluminum foil

Braille printed materials (thermal foaming paper)

Carbon paper · Transfer paper (iron-on transfer paper)

Paper containers for detergents

Individual packaging paper for soaps

Paper containers for instant noodles and ice cream

● Scented paper (examples)

Clothes

(Cloth items)

● Dry it and put it in a transparent or semi-transparent bag.

● Do not put it out on rainy days. If it gets wet, mold will develop, and it cannot be recycled.

<Examples>

● Cloth items

● Underwear

● Woolen products

● Handkerchiefs · Towels

Closed on rainy days!

● Blanket

● Curtains, etc.

Not applicable

Items less than 50cm are Burnable Garbage(P3),
folded items 50cm or more are Oversized Garbage(P11).

● Dirty items

● Torn items

● Items containing cotton

● Leather products

● Futon

● Fan-equipped work clothing

● Carpet

● Mattress

Oversized Garbage

Business garbage cannot be collected by request.

**By Appointment*
Fee required**

For items made of metal with the longest side 30 cm or more, and for other materials (plastic, wood, etc.) with the longest side 50 cm or more.

Before disposing of Oversized Garbage, why not consider reuse?

1 Apply

Apply to Oversized Garbage Reception Center via internet or phone.

Internet

● If an item is not listed online, please apply by phone.

FAX (For people with hearing or speech disabilities only)

FAX 045-550-3599

● Apply with your name, address, fax number, item details including type, material, size, and quantity.

Telephone

▶ Installed phone

0570-200-530 (Navi Dial)

▶ Mobile phones/IP phones

045-330-3953

Reception hours Monday~Saturday (excluding year-end and New Year holidays, holidays are also accepted)

8:30~17:00

- Phone lines are very busy on Mondays, Tuesdays, and the days following public holidays.
- Calls are recorded to improve service quality.
- You will be connected to an operator after the automated voice guidance.

- It takes about 2 weeks from registration to collection.
- Collected Oversized Garbage may be reused.
- Contact Oversized Garbage Reception Center by 3 business days before the collection date for any cancellations or changes after applying.
- Depending on the material, weight, and size, items may not be accepted.
- Leaving unregistered Oversized Garbage is illegal dumping. Please register before disposing of it.

2 Pay the handling fee

NEW When using electronic payment

- If you apply for collection via internet, electronic payment can be used.
- At the end of the application, the payment screen will be displayed. Please follow the instructions on the screen to make the payment.
- ※ For first-time Oversized Garbage applicants, complete the payment through the electronic payment URL in the confirmation email that will be sent later.
- ※ Electronic payments cannot be used for Oversized Garbage drop-off applications or phone applications.

When using the collection sticker

- Purchase collection stickers at financial institutions, post offices, or convenience stores in the city.
- There is no expiration date for the collection stickers, so you can use unused stickers next time. If you don't expect to use them in the future, please consult with us.
- Keep the receipt until collection is complete.
- Items without a receipt date stamp are invalid.
- Reissuance is not possible if the collection sticker is damaged or lost.

3 Dispose of your Oversized Garbage

Place items in the confirmed location by 8 AM on the collection day.

- Be sure to remove batteries and fuel such as kerosene.
- Oversized Garbage can be put out even on rainy days.
- If you apply for multiple Oversized Garbage items, they may be collected in several batches.

NEW When using electronic payment

- On any paper 10 cm by 10 cm or more, clearly write the 6-digit reference number provided in the acceptance notice.
- Write the 6-digit reference number on a piece of paper and attach it to each Oversized Garbage item using tape on all four sides.

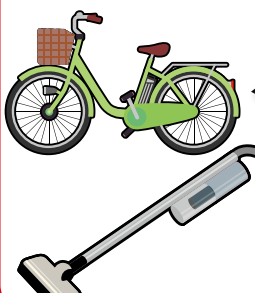

When using the collection sticker

- Please attach a collection sticker to each Oversized Garbage item you dispose of.
- If you don't want to write your name on the sticker for Oversized Garbage, you can replace it with a symbol or initials. Please consult when applying.

Attention

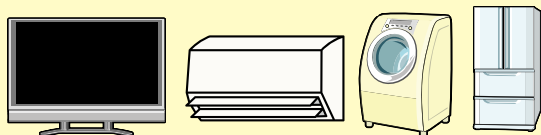

Please **remove** the **batteries** from items like electric bicycles and vacuum cleaners, etc. before disposal.

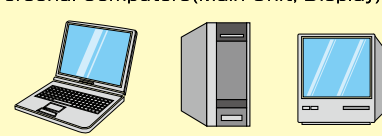

● Removed Dry-Cell Batteries to P4

Not applicable

● TVs, air conditioners, Laundry Machines-Clothes Dryers, refrigerators-freezers ⇒ To P13

● Personal Computers(Main Unit, Display) ⇒ To P14

Oversized Garbage disposal fee

For items not listed, contact Oversized Garbage Reception Center by phone.

Reduction of Oversized Garbage Disposal Fee

Target households	<ul style="list-style-type: none"> ● Households on welfare ● Households of Specific Long-term Chinese Residents ● Households with members certified as having physical disabilities Level 1 or 2 ● Households with a member who is certified with grade 1 mental disability ● Households with members certified as having intellectual disabilities A1 or A2 ● A household with a member certified with multiple disabilities (physical disability grade 3 and intellectual disability B1). ● Single-parent households receiving welfare medical certificates ● Households with elderly members (65 years or older) who are certified as needing long-term care level 4 or 5 under the nursing care insurance system ● Individuals aged 70 and over living alone, recognized by the Welfare and Health Center Director, who find it difficult to bring Oversized Garbage themselves.
Application method	<ul style="list-style-type: none"> ● When applying for Oversized Garbage disposal, indicate if you are eligible for a reduction. ● When applying, we will verify your handbook number, etc.
Scope of exemption	Up to 4 items per household per year (April 1 to March 31)
Reduction rate	Full exemption

Drop-off of Oversized Garbage

You can bring Oversized Garbage directly to the following drop-off locations. Prior application to the reception center **1** is required.

The same fee as the handling charge for collection requests is required. (Please attach the collection sticker and bring it in)

Drop-off location	<ul style="list-style-type: none"> ● Tsurumi Resource Center: 1-15-1 Suehirocho, Tsurumi Ward (inside Tsurumi Plant) ● Nagasakadani Stockyard: 745-45 Terayama-cho, Midori Ward ● Shinmeidai Stockyard: 3949-1 Ikenoya, Izumi Ward (inside Shinmeidai Disposal Site) ● Sakae Stockyard: 1570-1 Kamigou-cho, Sakae Ward <p>※Please check with the reception center for the acceptance date and time as they vary by facility.</p>
--------------------------	--

Oversized Garbage Pickup and Collection

We provide "oversized garbage collection" where staff enter premises or buildings for collection. For details, please contact your local Waste Collection Office(back cover)

We provide reused furniture at the Collection Offices and factories!

Garbage not collected by the city

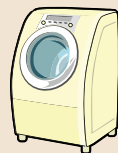

TV

Air conditioner

Laundry Machines·Clothes Dryers

Refrigerator·Freezer

Based on the "Home Appliance Recycling Law," the mentioned devices are collected by appliance retailers and recycled by appliance manufacturers, etc.

Disposal method

- Recycling fees are determined by the manufacturer and the type of equipment. Collection and transport fees vary depending on the application location.
- For details, please contact the application center or the Home Appliance Recycling Ticket Center (☎0120-319-640)
- You can request disposal through any of the following methods.

1

Request collection from the retailer where purchased or buy a new product of the same type

YES

Method	Fees & Payment Methods
Apply to the designated retail store	For inquiries about recycling fees and collection/transportation fees , please contact the relevant retailer.

NO

2

Self-Transport

YES

Method	Fees & Payment Methods
Directly deliver to the designated collection site in the city or nearby areas	Please pay the home appliance recycling fee at the post office in advance and bring the receipt with you.

NO

Designated pick-up location (Closed: Sundays, holidays, and additional closures during summer and year-end/New Year periods.)

Name	Location/Contact Information	Reception hours
Toshiba Environmental Solutions Corporation	20-1 Kansei-cho, Tsurumi Ward ☎ 501-5477	9:00~12:00, 13:00~17:00 Please note that final acceptance is 30 minutes before closing time. *The above reception hours and holidays are standard settings. They may vary depending on the facility's circumstances, so please inquire about the reception date and time in advance before bringing in items. *Please check in advance as there may be closures on Saturdays.
